

Meritor Parts

Meritor is a premier global dealer which is proudly founded on a one hundred year custom of quality and service. They specialize in several integrated systems, modules and components to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

By only employing future focused people, Meritor strongly feels these top-caliber people will be able to quickly adapt to changing surroundings and exhibit the commitment and performance required in order to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all their staff various possibilities for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, suspension and braking systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the needs of their international engineering personnel.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 nations and in 5 different continents.

The supplier development network is specially situated in order to support new business development. Regional teams are supported by international quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
